Abdulrahman Alsubayq

Date of birth: 2001/01/13 **Nationality:** Saudi **Address:** Riyadh, Saudi Arabia
Phone number: +966536882682 **Email address:** abdulrahmansbq@gmail.com

Profile

Experienced Full-Stack Developer with 7+ years in PHP, Laravel, JavaScript, and MySQL. Led the development of a SaaS multi-tenant app at Fateel Tech. Directed Laravel team for Shaguf Bites, ensuring seamless integration. Leveraged Laravel, FastAPI, and NextJS for AI-powered content extraction in Shaguf Bites. Developed interview analysis website during SDAIA internship, proficient in React, FastAPI, Agile methodologies, Jira, and CI/CD.

Education

Computer Science | Bacholar
King Faisal University

📅 05/2019 – 06/2024   📍 AL-AHSA, SAUDI ARABIA

- 4.73 out of 5 GPA
- Founded and led the Google Developer Student Club at the university.
- I was appointed as a member of the Board of Directors of the Student Fund and as a representative of the scientific colleges at King Faisal University for a period of two years by the university president.

Full-Stack Javascript Development | Nanodegree
Udacity

📅 10/2022 – 12/2022   📍 ONLINE

Work experience

Software Engineer
Fateel Tech

📅 05/2023 – 04/2024   📍 RIYADH, SAUDI ARABIA

- Utilized GitHub, Jira, AWS, CI/CD, and SOAP calls for efficient project management, deployment, and integration with external systems.
- Led the development team for an event management system, a multi-tenant event management system, and a system for managing ticket purchases for football matches.
- Successfully integrated external services such as a payment gateway, and government systems.
- Utilized SOAP calls to link with Ministry of Sports-related systems.
- Developed a SaaS multi-tenant application, demonstrating expertise in creating scalable software solutions.

Software Engineer Intern
Saudi Authority for Data and Artificial Intelligence (SDAIA)

📅 07/2023 – 11/2023   📍 RIYADH, SAUDI ARABIA

- Participated in the development of an AI-powered website for interview analysis.
- Integrated complex AI models into the backend for enhanced functionality.
- Designed a user-friendly front-end interface with React.
- Gained hands-on experience with FastAPI for backend development.
- Collaborated in a team environment, sharing ideas and contributing to project success.

Software Engineer
Shaguf

📅 02/2022 – 06/2023   📍 RIYADH, SAUDI ARABIA

- Collaborated with a team of 10+ engineers to develop an educational platform using Laravel, following Agile practices using JIRA.
- Led the Laravel team for Shaguf Bites' backend. Oversaw development, ensured best practices, and coordinated with other teams for seamless integration.
- Part of the Shaguf Bites development team, leveraging Laravel, FastAPI, and NextJS to simplify studying. Extracts content from PDFs and generates flashcards using AI
- Enhanced site performance by resolving N+1 problems and leveraging Redis Caching, resulting in optimized user experience and improved efficiency.

Work experience

Software Engineer
Nokhbat Alsharq

📅 10/2017 – 11/2021 📍 MAKKAH, SAUDI ARABIA

- Developed various websites and web applications using PHP with MVC architecture.
- Led a project for the Saudi Electronic University, creating a platform to streamline exam scheduling for faculty members and students.
- Contributed to Ektml platform, a project management platform allowing users to order projects.
- Integrated payment systems using PayPal and utilized cPanel and WHMCS for hosting solutions.

PHP Development	Javascript Development	Python Development	Typescript Development
Testing and debugging	Git Version Control	Agile Methodologies	API Development
Teamwork	Creative Thinking	Problem Solving	Working Under Pressure

Certificates

📅 04/2023

Laravel Certified Developer
By Laravel Certification

https://exam.laravelcert.com/is/abdulrahman-ahmed-alsubayq/certified-since/2023-04-04

Achievements & Awards

📅 07/2023

Qimam Fellow
McKinsey & Company

joined the exclusive Qimam Fellowship Program, one of 50 out of 21,000+ applicants. The 12-day leadership initiative offered valuable skills, mentorship, and industry connections, fueling my drive to make a meaningful impact.

📅 03/2024

1st Place in Libraries Hackathon
Libraries Commission

Scored the first place in the libraries hackathon, earning a prize of 100K.

📅 09/2022

14th place in SaudiCPC
Ministry of Communications and Information Technology

Participated in SaudiCPC, ranking 14th among the top 50 teams in Saudi Arabia. This competition tested my programming, problem-solving, and data structure proficiency in C++ and Java.

📅 01/2022

6th in IAU CTF
Imam Abdulrahman Bin Faisal University

Participated in IAU CTF, ranking 6th in the Capture the Flag competition among Saudi Arabian universities. This competition honed my cybersecurity and penetration testing skills, invaluable in web development.
